GEOMORPHOLOGY

Contents Volume 15

Publisher's Note v

Research Papers

Discharge and sediment supply controls on erosion and deposition in a dynamic alluvial channel
S.N. Lane, K.S. Richards and J.H. Chandler 1

Triggering mechanisms and depositional rates of postglacial slope-movement processes in the Yosemite Valley, California
G.F. Wieczorek and S. Jäger 17

Geomorphological evidence for anti-Apennine faults in the Umbro–Marchean Apennines and in the peri-Adriatic basin, Italy
M. Coltorti, P. Farabollini, B. Gentili and G. Pambianchi 33

Drought year changes in streambank profiles on incised streams in the Sierra Nevada Mountains
K.L. Zonge, S. Swanson and T. Myers 47

Geomorphological response of the East Frisian barrier islands to sea-level rise: an investigation of past and future evolution
V. Eitner 57

The palaeodelta of the "Proto" Vatrak and "Proto" Mahi rivers of northeastern Gujarat, India: A remote sensing interpretation
R.P. Agarwal, S. Dotiwala, D.S. Mitra and R. Bhoj 67

A morphological analysis of Tibetan limestone pinnacles: Are they remnants of tropical karst towers and cones?
D. Zhang 79

Research Papers

Paraglacial redistribution of glacial sediments in the Vestfold Hills, East Antarctica
S.J. Fitzsimons 93

Blockfields, old or new? Evidence and implications from some plateaus in northern Norway
B.R. Rea, W.B. Whalley, M.M. Rainey and J.E. Gordon 109

Modelling failure of natural rock columns
D.B. Hall 123

Aeolian dust transport and deposition by foehn winds in an alpine environment, Lake Tekapo, New Zealand
H.A. McGowan, A.P. Sturman and I.F. Owens 135

Channel pattern change downstream from a reservoir: An example of wandering braided rivers
Xu Jiongxin 147

The burrowing activity of scorpions (*Scorpio maurus palmatus*) and their potential contribution to the erosion of Hamra soils in Karkur, central Israel
J. Rutin 159

A geomorphic evaluation of the landslides around Dehradun and Mussoorie, Uttar Pradesh, India
S.V. Panikkar and V. Subramanyan 169

Preface 183

The time dimension in the study of mass movements
J.-C. Flageollet 185

The contribution of landslides to landscape evolution in Europe
A. Cendrero and F. Dramis 191

Remote sensing techniques for landslide studies and hazard zonation in Europe
F. Mantovani, R. Soeters and C.J. Van Westen 213

Databases and GIS for landslide research in Europe
R. Dikau, A. Cavallin and S. Jäger 227

The nature, use and problems of historical archives for the temporal occurrence of landslides, with specific reference to the south coast of Britain, Ventnor, Isle of Wight
M.-L. Ibsen and D. Brunsden 241
Debris-flow magnitude–frequency relationships for mountainous regions of Central and Northwest Europe
H. van Steijn 259
Aspects of landslide activity in the Mercantour Massif and the French Riviera, southeastern France
M. Julian and E. Anthony 275
Late Quaternary climate changes and mass movement frequency and magnitude in the Cantabrian region, Spain
A.G. Díez, L. Salas, J.R. Díaz de Terán and A. Cendrero 291
Temporal occurrence and activity of landslides in the area of Cortina d'Ampezzo (Dolomites, Italy)
M. Panizza, A. Pasuto, S. Silvano and M. Soldati 311
The mobility of the Alverà landslide (Cortina d'Ampezzo, Italy)
P. Gasparetto, M. Mosselman and T.W.J. Van Asch 327
Geomorphological study of the Fadalto landslide, Venetian Prealps, Italy
G.B. Pellegrini and N. Surian 337
The Sant' Agata Feltria landslide (Marche Region, central Italy): a case of recurrent earthflow evolving from a deep-seated gravitational slope deformation
C. Bisci, F. Burattini, F. Dramis, S. Leoperdi, F. Pontoni and F. Pontoni 351
